## SUMMARY

- Highly skilled Web Application Developer with 4+ years of hands-on experience in creating dynamic, high-performance web applications using the MERN stack (React.js, Next.js, Node.js, MongoDB, Express.js). Proven track record of delivering robust and scalable solutions in fast-paced environments, with a strong focus on user-centric design and innovative problem-solving. Adept at full-stack development, from frontend interface design to backend architecture, ensuring seamless integration and optimal functionality. Committed to staying updated with the latest industry trends and technologies to continuously enhance application performance and user experience. Strong team player with excellent communication skills and a passion for crafting efficient, high-quality code.
- 

## WORK EXPERIENCE

### Frontend Web Developer, Octopus technology

June 2021- Present

- Octopus technology is known for its flexible, customized solutions tailored to meet the unique needs of each client, and it emphasizes transparency and a client-centric approach throughout its engagement process
- 

## PROJECT DETAILS

### Shopdot: [\[Link\]](#)

- I have served as a React.js developer in the creation of the "Shopdot" web application.
- This application is constructed using function components, employing React hooks, and Redux Toolkit, and predominantly utilizing reacthook-form and Yup validation for its components
- As of now, the project remains unreleased, with ongoing adjustments and testing. "Shopdot" stands for an e-commerce web application.
- **Technology Stack:** HTML, CSS, JavaScript, SCSS, ReactJS, Redux Toolkit, JIRA

### Exam Solutions: [\[Link\]](#)

- Experienced in delivering personalised online tutoring services in the UK, catering to students of diverse academic levels. Skilled in providing one-on-one support across a wide range of subjects, ensuring students achieve academic success with confidence
- Create the entire Frontend from Scratch with the tech stack of ReactJS, Bootstrap, SCSS, Redux.
- Performing unit tests and debugging to guarantee the stability and reliability of frontend code.
- **Technology Stack:** HTML, CSS, JavaScript, MUI, ReactJS, Firebase, Redux, JIRA

## Legaliser: [\[Link\]](#)

- Utilise Legaliser's cutting-edge AI technology for seamless contract analysis, drafting, insights, and reporting. Experience streamlined processes and enhanced efficiency, revolutionising legal operations
- Leveraged OpenAI technology to implement comprehensive contract analysis functionality.
- Crafting the user interface and operational features for an administrative dashboard.
- Ensuring web applications function smoothly across various browsers and devices.
- **Technology Stack:** Javascript , Tailwind CSS , Next js , Node js, firebase , Redux toolkit, Stripe, Git

## Metrodao: [\[Link\]](#)

- Facilitating community interaction and pinpointing key issues affecting members. Proficient in conducting surveys and gathering feedback to understand community needs. Dedicated to addressing and resolving the most pressing concerns within the community
- Crafting and executing intuitive user interfaces tailored for web applications.
- **Technology Stack:** React Js, Node JS, MySQL, MUI.

---

## EDUCATION

**Bachelor of Engineering in Information & Technology**  
Gujarat Technical University

**July 2017 - July 2021**

---

## ADDITIONAL INFORMATION

### Technical Skill

- **Programming:** HTML5, CSS, SCSS, JavaScript, TypeScript, Bootstrap, Tailwind CSS, MUI, ANTD.
- **Frameworks:** React.js, Next.js, Node.js, Express.js, Serverless Framework
- **Database:** MySQL, MongoDB, PostgreSQL
- **Tools/Platform:** Git, Jest, Jira, Clickup, Trello, Postman, RESTful APIs.
- **IDEs:** VS Code, WebStorm IDE
