SUMMARY

- Highly skilled Web Application Developer with over 4 years of hands-on experience in designing, developing, and deploying dynamic and responsive full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Next.js. Demonstrated ability to deliver scalable, secure, and high-performance solutions in agile, fast-paced environments.

ADDITIONAL INFORMATION

Technical Skill

- **Programming:** HTML5, CSS, SCSS, JavaScript, TypeScript, Bootstrap, Tailwind CSS, MUI, ANTD.
- **Frameworks:** React.js, Next.js, Node.js, Express.js, Serverless Framework
- **Database:** MySQL, MongoDB, PostgreSQL
- **Tools/Platform:** Git, Jest, Jira, Clickup, Trello, Postman, RESTful APIs.
- **IDEs:** VS Code, WebStrome IDE

WORK EXPERIENCE

Frontend Web Developer, Shunyek Infotech   **June 2021- Present**

- **Shunyek Infotech** is known for its flexible, customized solutions tailored to meet the unique needs of each client, and it emphasizes transparency and a client-centric approach throughout its engagement process

PROJECT DETAILS

[Link] Happy People AI – Online Resume Builder

- Developed a responsive web application for creating professional resumes using Next.js, React.js, Tailwind CSS, and MUI. Enabled users to input details, preview templates in real-time, and generate downloadable PDFs.
- Built a responsive web app for users to generate professional resumes online
- Implemented dynamic forms for inputting personal, educational, and professional details.
- **Technology Stack:** Next.js, React.js, Tailwind CSS, MUI

[Link] Exam Solutions

- Built a personalized online tutoring platform for students across academic levels in the UK. Developed the frontend from scratch using ReactJS, SCSS, Bootstrap, and Redux. Ensured code reliability through unit testing and integrated Firebase for real-time functionality.
- Developed the entire frontend from scratch using ReactJS, Bootstrap, SCSS, and Redux
- Implemented responsive UI components for seamless learning experiences
- Performed unit testing and debugging to ensure frontend code reliability and performance
- **Technology Stack:** ReactJS, Firebase, Redux, JIRA,

[Link] Legaliser

- Legaliser is a cutting-edge legal tech platform that leverages AI to streamline contract analysis, drafting, and reporting. Designed to enhance efficiency in legal operations, it simplifies complex workflows and improves decision-making through intelligent insights.
- Leveraged OpenAI to implement advanced contract analysis and natural language understanding features
- Ensuring web applications function smoothly across various browsers and devices.
- **Technology Stack:** Tailwind CSS , Next js , Node js, firebase , Redux toolkit, Stripe, Git

[Link] Metrodao

- Developed a platform to facilitate community interaction by identifying key issues and gathering member feedback through surveys. Focused on addressing community needs and resolving concerns efficiently.• Crafting and executing intuitive user interfaces tailored for web applications.
- Conducted surveys and collected feedback to understand and prioritize community needs
- Designed and implemented intuitive user interfaces for enhanced user engagement
- **Technology Stack:** React Js, Node JS, MySql, MUI.

EDUCATION

Bachelor of Engineering in Information & Technbology   **July 2019 - July 2023**
Gujarat Technical University
